

TIGUA ENTERPRISES

FACILITIES MANAGEMENT & MAINTENANCE

Elevate the performance of your government or commercial enterprises with Tigua Enterprises Inc. (TEI), your partner for comprehensive facilities management and maintenance solutions.

Expertly crafted to meet diverse needs, TEI's suite of services and innovative technologies cater to facilities of every scale and purpose – from expansive research, development, and manufacturing hubs to intricate logistics centers and a myriad of smaller enterprises. Stay ahead of the curve, optimizing your facility's efficiency with TEI's customized solutions

- **Joint Venture Experience**
- **DOD Indian Incentive Program**
- **Bonding level is \$25 million (single) to \$100 million aggregate)**

MISSION SUPPORT

WHITE SANDS MISSILE RANGE

Upholding the U.S. Department of Defense's (DOD) global technological lead requires the collective brilliance of dedicated minds, including those from Tigua Enterprises (TE). TE's contractors contribute their expertise at the White Sands Missile Range (WSMR), the DOD's largest fully instrumented open-air range.

The WSMR serves as a pivotal hub for the Armed Forces, allies, and defense innovators, offering unrivaled research, experimentation, and training facilities. Since 2018, TEI has been privileged to contribute to WSMR's critical mission, bolstering U.S. National Security Strategy through the provision of test engineering and analysis services.

TEI's services are delivered as part of TNT Premier, a two-company unpopulated joint venture. As the majority partner in this venture, TEI collaborates closely with the minority partner, Trideum Corporation, fortifying our shared commitment to technological advancement and national security.

- Test engineering and analysis
- Test planning, coordination, execution, and reporting of test results
- Data collection, entry and analysis, engineering and technical support, software analysis, and software development
